

Sending a very big

THANK

YOU

for matching your gift!

You went out of your way to match your generous gift to Washington University, and we can't thank you enough.

Your contribution went to work immediately to help support the university's mission of teaching, research, and service to society, and now your employer's matching funds will multiply your gift's impact.

Last year, corporate matching gifts added more than \$1.2 million to the Annual Fund!

With support from generous donors like you, our students and faculty make discoveries, improve lives, and change the world every day. **Keep up with what's new and exciting at WashU at source.wustl.edu!**
